Portfolio: https://azran-ali-portfolio.vercel.app/ | **GitHub link:** https://github.com/AzranAli006

SUMMARY

BCA student skilled in Python, SQL, HTML, CSS and JavaScript, with hands-on experience from AI and Web Development and AI & Machine Learning internships. Built and deployed projects such as GovScheme Finder and a personal portfolio, both with live demos. Seeking an entry-level or internship role in software development.

TECHNICAL SKILLS

Programming: Python, JavaScript
Web Technologies: HTML, CSS
Database: SQL
Tools: VS Code, Git, GitHub, Vercel, Microsoft Excel, Figma

PROJECTS

GovScheme Finder– A Digital Platform for Awareness of Government Schemes

- Built a web app that recommends government schemes by matching user details (e.g. [age, income, state, category]) against eligibility rules.
- Designed a database to store and retrieve details of [50] schemes, with search and filtering.
- Deployed on Render with a public live demo.

Live Demo: https://govt-scheme-finder-bfql.onrender.com/

Personal Portfolio Website
Tech stack: *HTML, CSS, JavaScript, Vercel*

- Designed and built a responsive portfolio showcasing skills, education and projects.
- Linked GitHub repositories and live demos so recruiters can open each project in one click.
- Added profile links and contact details; deployed on Vercel.

INTERNSHIP & CERTIFICATIONS

AI Web Development

- Completed project-based training on building a personal portfolio website using AI tools.
- Learned Figma and UI design basics, and applied them to design and build a portfolio website.

AI & Machine Learning Internship

- Successfully completed internship at SAMCORE Solution.

Artificial Intelligence

- Completed certification in Artificial Intelligence concepts and applications.

Python Data Structures and Algorithms

- Completed Python Data Structures and Algorithms certification, developing skills in data handling and problem-solving.

EDUCATION

Bachelor of Computer Applications (BCA) – Bishop Heber College 2027
Tiruchirapalli, India
